

# Changing Fonts

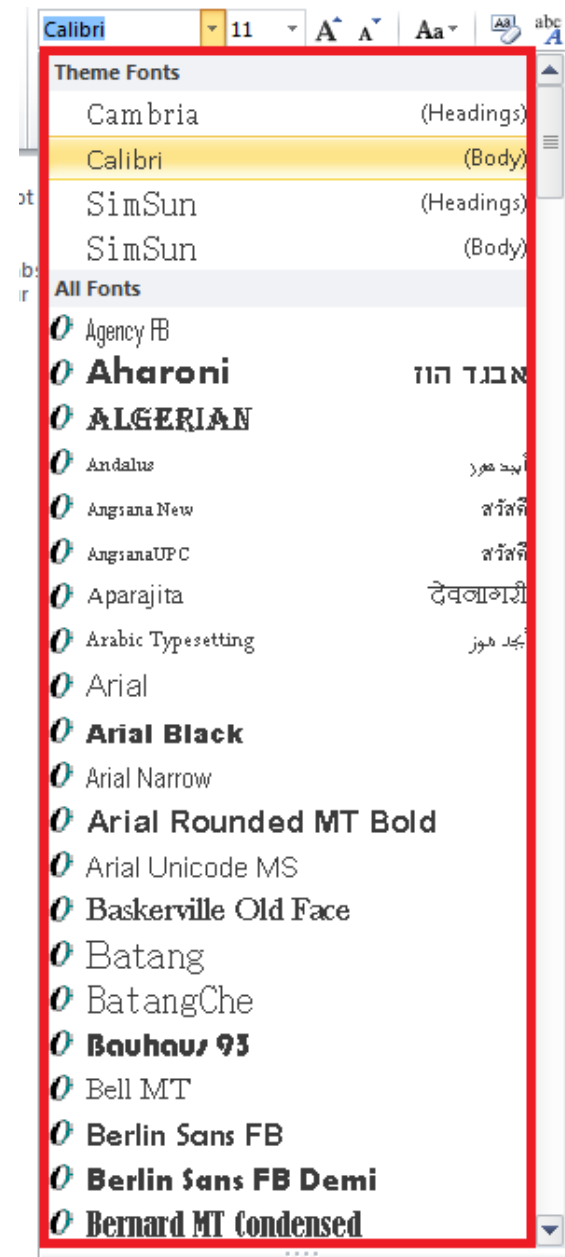

- **Hold the left click and drag the mouse** over the text's font you wish to change.
- **Left click on the Home tab**

- **Left click** on the arrow in the font box. It is located above the underscore symbol.

- In the pull down menu you can select your font.

- **Hold the left click button on the mouse** and drag on the grey bar to the right of the font box to scroll up and down.

- When you have found the font you wish to use **double left click** it.
